

Frontend Components – TSI 1021 P 1080P Driver Camera

- The TS-1021P in-cabin driver camera is a proprietary especially designed for invehicle video surveillance
- It has an unobtrusive, flat and protected housing which does not make the passengers feel awkward.
- It comes with 8 IR LEDs which allows the video to be captured clearly during the night and in low light areas.

DRIVER CAMERA

Frontend Components – TSI 1021 P 1080P Driver Camera Datasheet

Specification	Details
Imaging Lens	NEXTCHIP NVP2431H+ SONY IMX225
Lens mount	2.1mm/f1.8
Focal Length	3-5m
Resolution	1080 p
Sync System	Internal Synchronization
Minimum Usable Illumination	0 Lux at Night (IR On)
IR ON	CDS Control (under 10 Lux)
S/N Ratio	>60 dB(when AGC on)
Video Output	1.0V p-p 750hm
Electronic Shutter	Auto — PAL 1/50 ~ 1/100,000 sec
AGC	Auto
WDR	Auto

Frontend Components – TSI 1021 P 1080P Driver Camera Datasheet

Image Stabilization	Yes
White Balance	Auto
Scanning System	PAL: 625 lines 50 field/sec
Operating Temperature	-20 °C - 85 °C @ RH 95%
IR View Distance	5m
Storage Temperature	-20 °C - 85 °C @ RH 95%
Power	12V
Audio Input	1
Audio Sensitivity	-38dB
Signal Ratio	60dB
Maximum Audio	110dB
Output Voltage	5Vp_p
Output Resistance	220Ω
Output Signal Ratio	60dB
